

## **Maker Tools (inspired by a poem by Amy Ludwig VanDerwater)**

*Courtesy of The Tobin Center*

I start with an idea. (Draw circles with fingers above head)

Hmmmmmmm... (Thinking man pose)

I create using my hands (jazz hands), my head (Point to head), and my heart. (Hands on heart followed by 3 heart beats-Boom Boom/Boom Boom/Boom Boom)

I look at problems differently. (Make binoculars with hands)

I make something as unique as me. (Point 2 thumbs to chest with a steady beat)
